

Since 1902

MOUNT PULASKI'S HEADQUARTERS FOR BUILDING MATERIALS

J. M. ROTHWELL

In 1929 a partnership was formed between Mr. Rothwell and his son Keith, who now operates the business. J. M. Rothwell retired from active management of the business in 1935, returning to the office for a time during World War II, when his son served in the armed forces.

Your patronage has helped us to continue to grow and expand our services through the years. Today we offer everything from Redi-Mix concrete for the foundation of a building to the shingles for the roof.

Stop in and see us whether you need a can of paint for a small "do-it-yourself" job or the materials for a complete home. We are always happy to give free estimates on any job, and also to arrange FHA financing for major jobs.

CONGRATULATIONS
TO MOUNT PULASKI COMMUNITY
On Their 125th Anniversary—
May You Have A Wonderful Time !

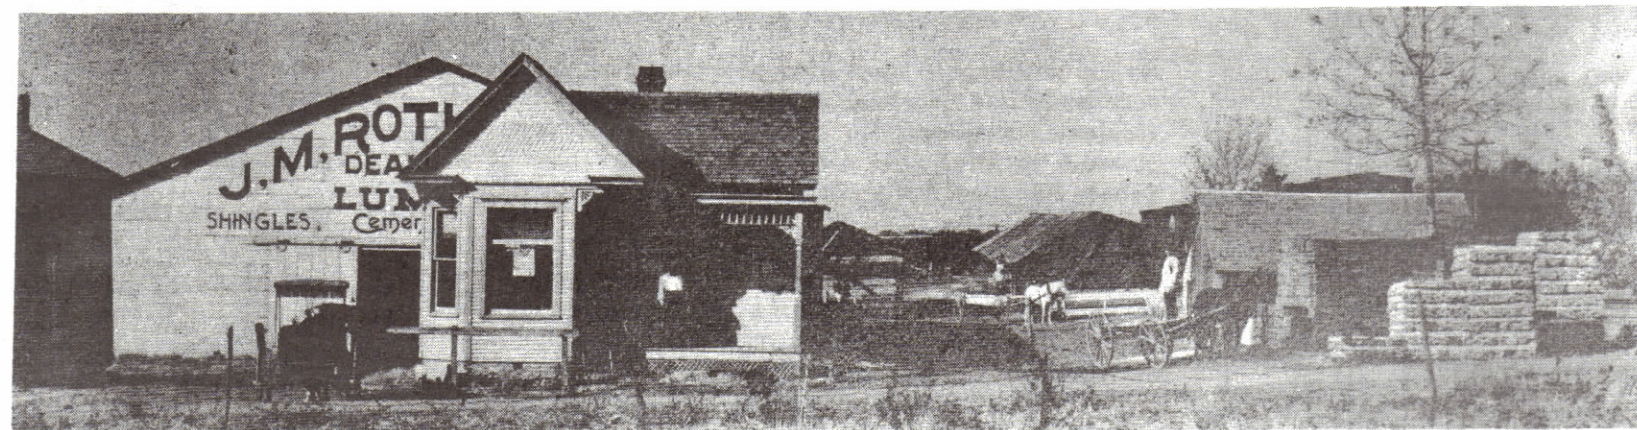

For the past 59 years it has been our pleasure to furnish the building materials for many of the homes and business places constructed in the Mount Pulaski area.

The business had its start in 1902 when John M. Rothwell, then associated with the Scroggin & Sons Bank (now Farmers Bank) purchased a comparatively small lumber business from W. D. Mitchell. A new office and main building were built shortly after he took over, and by 1922, the business had expanded to the point that it was necessary to rebuild all the other buildings in the yard.
