MIDDLETOWN HURLER

ALLOWS SINGLE HIT

Middletown defeated Beason by the score 10 to 0 Sunday. Morris, the Middletown pitcher, allowed only one hit.

ENJOY FIREWORKS AT

LINCOLN S. S. & COLONY

Many from here were present at the fireworks display at the Lincoln State School and Colony Monday evening. A gorgeous display of fireworks proved one of thrills from the first rocket to the closing display which was a representation of Niagara Falls.

TWO INJURED AS

TRUCKS COLLIDE

Robert Steinhour, 21 and Fred Dolinsek, 23, were painfully cut and bruised when the Malerich & Gossett truck in which they were riding was in collision with the truck of Krotz and Sons, in Park Place, at 5:10 Saturday evening. Both were taken to St. Clara's hospital where their wounds were stitched. They were able to return to their homes.

4 PLAYERS SUSPENDED

IN LINCOLN LEAGUE

Officials of the Lincoln Kitten League Saturday evening suspended four players for infraction of league rules at the Frigidaires-K. C. game Friday night.

Players suspended were Steve Powers, Joe Sapp and Leo Amberg of the Frigidaires and Frank Froeschauer of K. C.'s. Powers suspension is indefinite but the others are out for the season.

CIRCUIT COURT IS

AGAIN IN SESSION

Circuit court was resumed Tuesday by Judge Frank Lindley after a week's recess.

A new chancery suit, W. E. Bouillon vs. Clarence Agnew, et al, foreclosure, was filed Saturday by Attorney William S. Ellis for the September term.

Another suit, Equitable Life Insurance Co. vs. Edna Foley Sanford, et al, foreclosure, was filed Tuesday by Attorneys Green and Palmer of Champaign.

HEINZEL SECOND IN

5,000 METER RACE

Byron Heinzl, Lincoln's entry in the midwest semi-final Olympic trials, tied second to Henry Brooksmith, of the University of California, in the 5,000 meter run Saturday and qualified for the final trials which will be held in Palo Alto, California, July 15 and 16.

Due to a misunderstanding of the time schedule, Heinzl failed to appear in time for the 10,000 meters, his favorite event, and consequently entered the only other long distance run scheduled.

Although qualifying for the finals, his performance did not earn him financial aid from the Olympic committee and he has not decided whether to attempt the trip to the coast.

PATMAN ASSAILS ARCH ROOSEVELT

Representative Wright Patman, of Texas, had a few words to say last week regarding Archibald Roosevelt and his national economy committee. Patman's statement, which speaks for itself, follows:

Archibald Roosevelt, of Tea Pot Dome fame, the beneficiary of many Government subsidies, and of late the mouthpiece for Wall Street in its fight against veterans, has presented some very misleading information to the public. Wall Street money and influence has caused the conglomerated misrepresentations presented to the President by Archibald. This is not the first time Archie has been accused of being a lobbyist and messenger for the special interests. When his brother, Theodore, jr., was Assistant Secretary of the Navy under Denby in the famous Harding-Dougherty-Fall administration, Harry Sinclair gave Archibald a very large salary for his messenger and lobbying service; his salary was raised at different times and up to \$15,000 a year, altho Sinclair later testified he was no good at any kind of work. Sinclair was successful in getting the naval oil lease signed and the United States marines used to clear the property of drilling rigs without the inconvenience of a lawsuit in which those in charge of the property would have had their day in court.

Archibald presented to the President what was known as a petition for redress of grievances, which stated:

"We petition for the reduction of the Federal expenditures by not less than \$450,000,000 annually, which these reforms would effect. We make it plain that we are not now speaking of the so-called 'bonus,' to which we are opposed, but we are speaking of a drastic reduction of the growing annual expenditures in the Federal budget for veterans of the World War and Spanish-American War."

"A few of the main items of the \$928,000,000 annual appropriation are these:" They are enumerated as follows:

- (a) Compensation for death during the World War service paid to dependents \$36,288,558
- (b) Compensation for service connected disabilities during World War 204,641,843
- (c) Retired pay of emergency officers who incurred physical disabilities in line of duty during World War 11,046,040
- (d) Disability allowances for veterans of World War for disabilities not connected with their service during World War 104,277,554

(Many veterans are in this class who have service-connected cases but were unable to make the proof as required by law due to destruction of their records on battle field and other reasons.)

Total \$356,250,000

Hospitalization 115,528,795

Military and naval insurance 117,000,000

Adjusted-service certificate fund 100,000,000

The petition further states:

"The total of the above and other

Ed Wynn Meets His Rival

Ed Wynn, noted buffoon of the comedy stage, now become a comic firechief on the radio, is presented a bust, modeled and finished in natural colors by George W. Vos, a New York admiral of Wynn. "My goodness," said the chief of the likeness, "it's me so much I can use it in place of a mirror for shaving!"

items for veterans of the World War is approximately \$690,000,000. In addition, there is appropriated by the House bill the sum of \$225,850,000 for the regular pensions for the veterans of earlier wars, of which amount \$116,393,447 is for pensions of veterans of Spanish-American War.

The above recitals comprise a few—but a few only—of the facts demonstrating that an immense and growing legalized abuse has been fastened upon the people, which has reached a point which is beyond toleration and demands immediate abatement. Let no one assert that these petitioners desire to deprive any man who has served his country in military service of his just due. We advocate not merely just but liberal treatment of the dependents of all who lost their lives in war service and for all who suffered disability in war service. What we oppose is the payment of the great sums which are being disbursed to or for those who suffered no physical detriment in the war—a system which saps the resources of the people and creates a specially favored class receiving a great subsidy from the people at large. Your Petitioners make these representations with respect but with the firm resolve that this vast legalized abuse must be abated and that this grievance of the people must be redressed."

(May 4, 1932. Signed by Archibald Roosevelt and 131 others, constituting what they called the National Economy Committee, 19 W. 44th St., New York City.)

Let us analyze this petition. A saving of \$450,000,000 a year is demanded in expenditures for veterans of the World War and Spanish-American War. It is wondered why the same reductions should not be requested for veterans of the Civil War and their dependents who fall in the same class; they are specifically excluded.

The petition does not include the so-called bonus, so we will eliminate from our considerations the \$100,000,000. Military and naval insurance was paid for by the veterans with their own money. (Remember the song, "We get \$30 a Month, Deducting \$29") Therefore, the \$117,000,000 should be excluded from consideration. Nonservice connected cases are not entitled to hospitalization unless there is a vacant bed in the hospital not needed by a service-connected case. It is presumed that the expense to the Government will be very little more if all the beds are filled, since the overhead expenses, including salaries and expenses of doctors, nurses, clerks, maintenance and upkeep of buildings, etc., must be paid anyway. Certainly, medical and hospital care should not be denied men who suffered injuries in battle and other war injuries and diseases. Therefore, we will exclude from consideration the reduction of \$115,528,795 for this service. The hospitals are maintained for service-connected cases.

The following items will have to bear the \$450,000,000 reduction:

Death compensation \$36,288,558

Compensation, service-connected cases 204,641,843

Emergency officers 11,046,040

Disability allowance 104,277,554

Pensions, Spanish-American War veterans 116,393,447

Total \$472,743,447

The petitions should have been more frank and demanded that no compensation or pensions be paid to honorably discharged veterans of the

WORLD'S FAIR SHAPING UP

A year before the opening day of Chicago's 1933 World's Fair, thirteen buildings are either already standing, approaching completion or under construction, and many more will be undertaken this summer. Ten million dollars, assured by a bond issue underwritten by Chicago citizens, is providing adequate advance financing. Contracts aggregating more than \$3,000,000 have already been signed by more than 150 great corporations, representing practically every phase of industry, either for the purchase of exhibit space, or for the erection of special buildings. Forty-four states of the Union have either appropriated money for participation, or appointed official state commissions to develop exhibits. Four territories have made appropriations for exhibits.

World War and Spanish-American War for death or service-connected cases or for any other purpose since they demanded a reduction which, if allowed, would practically eliminate all these benefits.

Archie says that the veterans are a "specially favored class receiving a great subsidy" and that "this vast legalized abuse must be abated and that this grievance must be redressed."

Archie and J. P. Morgan are interested in steamship lines. The lines were purchased from the Government for a very small price. They received a subsidy from the Government in the purchase of the vessels. The Government did require certain payments to be made over a period of 20 years. However, the Government gave them contracts to carry the mail in their steamships. They are being paid as high as \$25,000 a trip for carrying one and two pounds of letters. One of their lines has a 10-year contract to carry the mail from Baltimore to Hamburg. The first few months of their first year, this line rendered a service for the Government in carrying the mail that other steamship lines would have rendered for not to exceed \$15,000. This company was paid under its liberal contract with the Government the sum of \$807,246 or a subsidy of \$792,246 for this service.

Another Morgan-Roosevelt line has a very liberal contract with the Government to carry ocean mail. It receives a similar subsidy. This line borrowed \$15,750,000 from the Government's Shipping Board. The date of the loan was May 24, 1930, and it will mature in 20 years. The interest rate is 1-2 of 1 per cent or 50 cents for the use of every \$100 of the Government's money for one year. Contrast this with the \$4.50 and \$6 on the \$100 paid by the veterans for the use of their own money.

The Government is paying out more than \$18,000,000 a year, in excess of what other steamship lines would render the service for, to the Morgans, Roosevelts, and others who are talking about subsidies to veterans.

A toast to the king in tea, for which the lord chamberlain's permission had been obtained, was drunk at a London luncheon to celebrate the opening of extensions to a tea warehouse.

CHEAPER TO SHIP BY RAIL BECAUSE OF ACCURATE WEIGHT

Shippers are learning from actual experience that it frequently pays to ship by rail for economy's sake, even though other transportation agencies may offer lower rates. A case in point is cited by a railway agent in Birmingham, Ala.

Recently a Mid-West firm shipped a consignment of goods by motor truck line to Birmingham for re-shipment to destination by rail. The truck company had no facilities for weighing the goods at the time of acceptance, but guessed the weight at 1,000 pounds and charged the shipper at the rate of 63 cents per hundred-weight, or \$6.30.

When the shipment was delivered to the railroad it was found to weigh only 720 pounds, or 280 less than the weight for which the shipper had been charged by the truck company. The railway agent at Birmingham notified the shipper of the discrepancy and called attention to the fact, had the shipment been made by rail, it would have been correctly weighed at the time of acceptance and the rail charge would have been only 65 cents per hundredweight, or \$4.68. Thus the shipper would have saved \$1.62 in freight charges if he had shipped the goods by rail.

It's better to have a fellow tell you an old story than a new scandal.

We Have Experience

A funeral director who is really prepared to render the type of service to which a family is entitled must have behind him many years of experience.

We have had that experience, and among other things, it has taught us how to give really modern and desirable service for as little as one feels he can afford to spend.
